AIM is the only company in the Hurgada and Red Sea area who can provide all of your engineering needs for marine, automotive or engine driven plant.

Our 800+m<sup>2</sup> purpose built

## Our Available Services

AIM for General Engineering can offer a wide selection of services to meet your needs. We use dedicated machinery operated by skilled and experienced technicians who can complete almost all aspects of mechanical engineering. Some of our key activities are listed below:

- Grinding and finishing of bearing surfaces on camshafts and crankshafts to remove grooves or scoring from previous use and ready to accept after-market oversize shell bearings
- Replacement and machining of new inlet and exhaust valve seats in cylinder heads
- Re-grinding and seating of inlet and exhaust valves in cylinder heads
- Milling and fine grinding of engine blocks and cylinders heads to remove warping or

workshop provides everything required for the completion of full maintenance, repair and overhaul services on your engines, gearboxes, generators and compressors, with all of the work being carried out by fully our trained and experienced workshop technicians.

We are conveniently situated on the El Herafyin Industrial Area directly behind Hurgada Airport, easily accessible from the El Gouna Road and the Hurgada Outer Ring Road.

distortion

- Straight and helical gear cutting
- Vertical boring and finish honing of cylinder sleeves and liners
- Horizontal boring for correct alignment and seating of crankshaft and camshaft bearing faces in engine blocks and cylinder heads
- Long bed lathe for machining and checking alignment of propeller drive shafts
- Adjustments and modifications to drive train suspension systems for engine, gearbox, driveshaft and propeller configurations
- General cutting, welding and fabrication techniques

This list is only a basic sample of the work we are able to undertake. Should you have some work you would like us to do for you and it is not listed above, please call us on **017 591 9 591** to discuss further, or pass by the workshop and talk to our technicians about your requirements. A map of our location can be found [here](#), and our opening hours are:

**SATURDAY - THURSDAY**

**10.00am - 7.00pm**

**FRIDAY**
